

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to express my opposition to the FCC's proposal to allow the use of cell phones on airplanes in flight.

We're a captive audience up there. Having to put up with cell phone conversations from fellow passengers would be the audio equivalent of being subjected to second-hand smoke in an airplane (that was no fun either)

Moreover, are we absolutely certain cell phones won't interfere with navigational instruments?

Cell phone use in commercial flights will increase tension among passengers, and could prove an aid to terrorists in coordinating attacks.

Please leave the current restrictions in effect.

Sincerely,

Michael Gracia
